SUMMARY

MCA student seeking an entry-level Full Stack Developer. Skilled in MERN stack, database management, and AI-driven web applications. Passionate about building scalable, efficient, and user-focused software solutions.

EXPERIENCE

AI Internship

February, 2025 – March, 2025

All India Council for Technical Education (AICTE) – Remote • New Delhi

- Selected for the TechSaksham AI Internship, a national initiative by Microsoft & SAP in partnership with AICTE.
- Built an AI-powered Resume & Candidate Ranking System using Streamlit, NLP, and machine learning to rank resumes based on job description relevance.
- Gained mentorship from industry experts and participated in collaborative learning sessions.

Teaching Staff

August, 2021 – December, 2023

BECIL Training Centre – On-Site • Ahmedabad

- Delivered CCC, Tally, and basic web development courses, covering both theory and practical work.
- Managed student admissions, class schedules, and coordinated multiple batches effectively.
- Prepared and maintained financial records using Tally Prime and MS Office tools, and assisted in financial reporting.
- Developed and implemented lesson plans and educational materials tailored to diverse learning needs.
- Built strong communication and leadership skills while creating a positive, engaging classroom environment.

PROJECTS

SpeakWise – AI-Powered Language Pronunciation Platform

MERN, TypeScript, Tailwind CSS, Radix UI, Recharts (for graphs), Jest, Vercel [Live](#) • [GitHub](#)

- Developed a full-stack AI pronunciation coach with real-time speech analysis, multi-language support, and detailed accuracy/fluency scoring.
- Built secure REST APIs using **Express.js**, JWT authentication, bcrypt hashing, Helmet.js, rate limiting, and input validation for production-grade security.
- Designed a responsive UI using **React.js**, **TypeScript**, **TailwindCSS**, **Radix UI**, and created analytics dashboards with **Recharts**.
- Implemented a complete testing ecosystem using **Vitest**, **Jest**, **React Testing Library**, **Supertest**, and **Playwright**, achieving **80% backend** and **70% frontend** test coverage.
- Deployed the application using **Vercel (frontend)** and **Railway (backend)** with **MongoDB Atlas**, ensuring a scalable, cloud-ready architecture.

Zom-Feed

MERN Stack

[GitHub](#)

- Developed a full-stack social feed web application for food enthusiasts using MongoDB, Express.js, React, and Node.js.
- Built secure **JWT-based authentication** and RESTful APIs to manage posts, likes, and comments efficiently.
- Integrated **ImageKit** for image storage and implemented a responsive, modern UI with React and Tailwind CSS.
- Optimized backend performance and ensured smooth data synchronization across client and server.

AI Resume & Candidate Ranking System

Python, Jupyter, Scikit-learn, Streamlit, PyPDF2, Pandas

[Live](#) • [GitHub](#)

- Developed an AI-powered resume ranking system using Streamlit that scores resume based on job description relevance using TF-IDF and cosine similarity.
- Enabled recruiters to efficiently evaluate multiple candidates with interactive visualizations.

Class Management System – VCS

HTML, CSS, JavaScript, Python, Django, MySQL

[GitHub](#)

- Built a full-stack system for managing private class operations like attendance, grades, and user roles.
- Included full auth system: login/signup for admins, staff, and students with role dashboards.
- Worked in a small team, staying on task with clear priorities and solid version control.

SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS, Java, ASP.NET, C#, Python

Libraries & Frameworks: React.js, Node.js, Express, Django, Tailwind CSS

Databases: MongoDB, MySQL, PostgreSQL

Tools and Platforms: VS Code, Cursor, Postman, GitHub, Git, Google Antigravity

Soft Skills: Critical Thinking, Problem Solving, Team Collaboration, Leadership, Communication

EDUCATION

Masters of Computer Applications

LJ University • 2024 – 2026 • 8.25 (Current SPI)

Bachelor of Computer Applications

Gujarat University • 2021 – 2024 • 6.93 CGPA

HSC (12th)

Muktajivan High School • 2021 • 61.33%

CERTIFICATIONS

Generative AI: Fundamentals • IBM

[View](#)

Introduction to Software Engineering • IBM

[View](#)

AWS Fundamentals • AWS
